Proprietors

FALL 1926—SPRING 1927

The stock we offer is our own growing and can be dug and shipped promptly. It is all nursery grown and once or more transplanted. We solicit correspondence and personal inspection of our stock.

RESPONSIBILITY—After goods are packed in good shape and delivered to transportation companies, our responsibility ceases.

COMPLAINTS—Should there be any reason for complaint, we must be notified on receipt of goods, otherwise we cannot entertain it. All reasonable claims will have our careful consideration.

ORDERS are accepted upon condition that they shall be void should any injury befall the stock from frost, or other causes beyond our control.

SUBSTITUTION will not be made unless so ordered. In ordering please state if substitution will be permitted in case we should be short of any sort wanted.

TERMS: CASH—On or before delivery to transportation companies, unless by special arrangement.

PACKING—This is done in boxes and bales for which a charge is made sufficient to cover cost of material only. Trees packed in bulk in cars at no extra charge.

RATES OF CHARGES—The articles in this list will be furnished at rate each, or except where hundred or thousand rate is given, then 25 or more at 100 rate; 250 or more at thousand rate.

HOW TO REMIT—By check, draft, registered letter, or money order on Midlothian, Va.

LOCATION OF OUR NURSERY—On the Southern Railroad, thirteen miles south of Richmond. Less than carload shipments are made by express or freight from Midlothian, Va. Carload shipments are made from Dodamead siding, Southern Railroad.

GUARANTEE OF GENUINENESS—While we exercise the greatest care to have our varieties pure and true to name, and hold ourselves ready to replace, on proper proof, all stock that may be otherwise, we do not give any warranty, expressed or implied; and in case of an error on our part, it is mutually agreed between the purchaser and ourselves that we shall at no time be held responsible for a greater amount than the original price of the stock. We guarantee all of our stock to be in good condition on leaving our hands, but we do not guarantee it to grow under all conditions, nor do we make up any loss whatever due to climate effects, or after culture on the part of the purchaser; and the risks of transportation are to be borne by the purchaser. When losses occur by delay, claims should be at once made on forwarders.
